Centexbel Patent Cell

information | patent search | assistance | innovation

Centexbel Patent Cell

- founded in collaboration with the Belgian FPS Economy
- open to all companies in the entire textile value chain
- boosting the interest of sme's in IPR
- advice on how to obtain and use patents and other forms of intellectual property rights
- information on innovative textile technologies and products around the world

PATLIB Privileged Database Access

- as a PATLIB centre (Patent Library), the Centexbel Patent Cell has a privileged access to non-public data and very specialised up-to-date EPO training programmes
- the PATLIB statute gives an added value to the Centexbel Patent Cell, thanks to EPO's refined online search engines
